

New collective quantified goal on climate finance - Informal consultation: CMA 11 (a)

13th November 18:45 – Laetitia Pettinotti, ODI

Overall

- Request by all speakers to streamline the text. (G77+China, UK, Can, EIG, Norway, EU, Arab group)
- Rooms made available by Secretariat for interested Parties to have informal discussions.
- Any output of these discussions should be sent to co-chairs by 10am tmw.
- Some convergence that discussions could focus on issues where there is repetition and seemingly convergence: access, inclusivity para in preamble, transparency. But G77+China want a streamlined text before further discussions.

Discussions

G77+China – ask = streamline text and cluster and don't remove ideas. Text to be ready by tmw morning.

EIG – now 34 pages w lots of duplication, align w g77 ask of streamlining.

On substance: repetition on gender and IPL or eg 88-106 all on access should be 1 para reflecting all concerns. Same for GST text repetitive. 162-175 on transparency: positions not far apart but should work for set of para streamlined.

Request space to work w each others ie informal informal.

Norway – commonalities. Align w G77 China and EIG to have tech edit to avoid duplication. Eg in Norway submission mention IPL and human rights and gender now in 30 to 39 but can be streamlined.

Also ask for informal settings but inclusive manner.

EU – streamline. Some elts could be good starting points where not far apart eg on access, transparency, inclusivity paras. Open to different modality of work.

Canada – streamline. Eg inclusivity paras 30-39 are similar could be combined. Ask for 30-39 is operationalisation of the rights base lgue through out text. 30 and 32 do a good job on this but should also be reflected in direct access – not just in that inclusivity para.

UK – note there is willingness to talk about access, debt, cost of K, quality of finance.

Fiona Gilbert co-chair – room available for informal discussion. Any outputs from this evening discussions should be made available to the co chairs by 10am tmw.

Saudi Arabia ob Arab group – align w G77. Disagree w informal informals. Want streamline text

DRAFT – not for circulation.
